

GOAL OF THE GAME

TO BE THE **ONLY PLAYER** STILL ON THE BOARD

PLAY TO MONOPOLY

The goal is to be the last player standing after all opponents have gone bankrupt ! The game can also end when the maximum number of turns, defined by the host during setup, is reached. Players must build a real estate empire while strategically using the unique abilities of their chosen class.

SET UP

1. **Log in** to your account. If you don't already have one, create an account in just a few clicks to save your progress.
2. **Create a new lobby** to invite your friends, or join an existing game by entering the access code provided by the host.
3. **Select your class** from those offered on the screen. Choose wisely, each class has its own strengths !
4. The game is on! Play strategically, eliminate your opponents and give it your all to be the last survivor in the game.

PLAYER CLASS

Before starting the game, choose the profile that best suits your play style. Each class has a unique passive power that can completely turn the tide of the game!

The Thief

Board Pickpocket : The Thief excels at opportunism. During their turn, if they roll the dice and their token lands on the exact same space as an opponent, they take advantage of the confusion to steal some of their money.

The Lucky One

Player's Luck : For the Lucky One, luck always seems to be on their side. During his turn, if he manages to roll doubles, luck smiles on him twice over: in addition to rolling again (according to the rules), he instantly receives a cash bonus from the bank.

The Banker

Profitable Investment : The Banker has a knack for business and knows how to make his capital grow. Thanks to his financial skills, he benefits from an exclusive bonus: every time he lands or passes Go, he receives significantly more money (a substantial bonus is added to the initial \$200).

GAME STEPS

1. ON YOUR TURN

Click Roll Dice to roll. Your pawn moves automatically.

2. Different cases

After rolling the dice, several options are possible.

1 CASE N°1 : Free Property

When your pawn lands on a property space that doesn't yet belong to any player, a pop-up window automatically appears on the screen offering you two options :

- ◆ **Buy**: Click this button to permanently acquire the land. The purchase amount will be immediately deducted from your game balance, and you will begin collecting rent as soon as an opponent lands on it.
- ◆ **Pass**: If you prefer to save your money or if the property doesn't fit into your strategy, click this button to decline the offer. The property will then remain available to other players.

OR

2 CASE N°2 : Landing on an Opponent's Property and Paying Rent

Danger lurks around every corner! If the roll of the dice lands you on a property already owned by one of your opponents, you must pay them compensation.

- ◆ **Automatic Payment** : No need to get out your calculator ! The rent amount is calculated instantly by the game and automatically deducted from your account to be transferred to the owner's pot.
- ◆ What does the amount depend on ? Stay alert, because the rent increases considerably if your opponent owns all the properties of the same color or if they have built buildings on them.

OR

3 CASE N°3 : Special Spaces on the Board: Effects and Rules

When your token lands on one of these specific spaces, special rules apply immediately. Here's what happens:

Free Parking (Park)

- ◆ **Complete rest** : Absolutely nothing happens on this space. It's a neutral zone on the board that allows you to take a break without risking rent or penalties. Enjoy this moment of respite !

Lucky/Community Chest Spaces

- ◆ **Chance comes into play** : As soon as you land on one of these spaces, a card is automatically drawn from the corresponding deck. Read its effect carefully: it could grant you an unexpected financial bonus, move you elsewhere on the board, or, conversely, impose a surprise tax!

Go to Jail Space

- ◆ **Immediate arrest** : Do not pass Go, do not collect money: your token is sent directly to Jail. Your turn ends instantly, and you must fulfill the escape conditions (pay bail or attempt a double roll) to be able to play again on your next turn.

Go Space

- ◆ **Passing bonus** : Each time you complete a full circuit of the board and stop or pass Go, the bank immediately pays you \$200. This is your main source of regular income to replenish your coffers!

Luxury Tax / Income Tax

- ◆ Landing on a tax space requires the player to immediately pay the indicated amount to the Bank.

OR

4 CASE N°4 : Building Houses and Hotels on your own properties

If you land on one of your own properties, you may build houses or hotels to increase the rent value.

Construction Rules

- ◆ You can build 1 to 4 houses on the property.
- ◆ Once you have 4 houses on a property, you can replace them with 1 hotel.

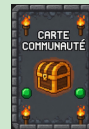

CHANCE AND COMMUNITY CHEST CARDS

You inherit 100 M

Advance to Go (Collect 200 M)

Life insurance: Collect 100 M

Bank error in your favor: Collect 200 M

Pay 50 M for medical expenses

You are released from prison. This card may be kept until you need it.

You are released from prison. This card may be kept.

Go to Jail. Do not pass Go. Do not collect 200 M.

Speeding fine: Pay 15 M

School fees: Pay 150 M

END OF THE GAME

The game doesn't last forever! The game ends immediately as soon as one of the following two conditions is met :

- ◆ **Victory by Elimination (Last Man Standing)** : The game ends as soon as only one player remains. If all your opponents have gone bankrupt or been eliminated, you are instantly crowned the grand winner of the game. Put on your crown !
- ◆ **Time Limit (End of Rounds)** : If the game drags on, it automatically ends once the predetermined maximum number of rounds is reached. **Determining the Winner** ; In this case, the remaining players are ranked by the system. The player with the most wealth (cash + property value) is declared the winner based on points.
